

## FL200

### ► Technical Specifications

Filter class	G3	DIN EN 779:2012
Material thickness [mm]	20	
Weight [g/m <sup>2</sup> ]	200	
Initial pressure drop [Pa]	35	
Flow velocity [m/s]	1,5	
Average efficiency [%]	80-90	
Standard roll dimensions [m]	2 x 20 and 2 x 40	
Recommended final pressure difference [Pa]	250	
Energy class	n.s.	
Eurovent certified	No	

All data provided are average values.

The technical characteristics are subjects to the usual fluctuations and are therefore not binding.
